

MobilBid Hacks...

Amazing tips to make your life easier and give you a better, more successful, silent auction!

Find a Sponsor

Savvy fundraisers often find a sponsor or sponsors to cover the cost of the auction. Sponsors can be included in local pre-event advertising, social media posts and promoted during and after the event in exchange for their support.

Admin Charge

MobilBid provides a cost-efficient platform with all features available to every user. One feature lets users add an "administration charge" to an invoice as a percentage of the total. This can help cover all or part of the cost of the event.

Donation Feature

Another great hack is the donation feature. Particularly for those who want to support a cause but didn't win an item. Fundraisers can ask for a specific amount using our platform or direct bidders to the donation page on their website.

Open a Stripe Account

Don't have a STRIPE account? Get one! This mobile payment system simplifies closing. A key option requests credit card info before bidding. When the auction ends, winners' cards are processed immediately, and they receive a detailed receipt to claim their item. Cool!

Use the Setup Tutorials

P-s-s-s-t... here's a bonus hack. MobilBid Learn delivers a complete set of tutorial videos to guide users through every step of the setup procedure.

MOBIL
Bid

Thank you for considering MobilBid. Since its introduction just five years ago, MobilBid has carved a place in the North American fundraising scene. We are proud to help hundreds of charities and non-profits raise millions of dollars annually.

MobilBid is a product of Toronto-based software technology company Net Directories Inc.
