Are you still using printed bid sheets,
asking guests to push through
crowds to place bids and
then wait hours while volunteers
tally results for checkout

MobilBid

is becoming Canada's
favourite silent auction platform
with golf event planners and
golfers alike, delivering live,
virtual, and hybrid
auctions.

1 PERFORMANCE PRICING WITH NO UP-FRONT COSTS

MobilBid combines innovative software with mobile technology to give fundraisers a modern, affordable, silent auction platform. There is no cost to open and use a full featured MobilBid account. Our performance pricing system means we bill you only after your auction ends.

2 EASY SELF-SETUP AND AUCTION MANAGEMENT

A trial account provides access to the software, training videos, and technical help. Full guidance through design and setup with item images and descriptions. Auction times can be set to preview, open, and close automatically. From the opening bid to final invoicing, you control the entire auction with just a few keystrokes.

3 A BETTER GUEST EXPERIENCE DRIVES REVENUES

Guests join the auction by texting to a dedicated phone number. Then review items, choose favourites, bid, and rebid on their smartphones from anywhere - cart, bunker or green. Remote bidders have the same access and can also join through a computer.

4 ELIMINATE ANNOYING LINEUPS AND CLOSING CHAOS

Everyone's favourite feature - mobile payment - requests credit card info at first bid, then on close, the winners' cards are processed immediately, and the winning bidders are sent a receipt used to claim their items.

5 CACHED BIDDER CONTACT INFO AND BIDDING REPORTS

MobilBid captures and stores bidder contact info and bidding stats. This ends manual collection and recording auction data and provides valuable information for future planning.

**MOBIL
Bid**

Helping those who help others.

MobilBid is a division of Toronto-based, all-Canadian software technology company Net Directories Inc. providing an innovative, mobile bidding platform performing at hundreds of events annually and raising millions of dollars.
